PT. Karya Idaman Bersama

The Greater of Bags Manufactory

History

The specialization of staff, the new technology and the most attention to the production give an excellent quality of the leather and all kinds of fabrics handbags. The styles of leather bag are made by our Italian leather bag designer that works in collaboration with the supplier of raw material. for this reason, our leather bag purse have an exclusive design.

A meticulous study of the shapes of early and traditional leather bag first pointed the way to leather bags. That is, to give a profound sense of stylistic elegance to the end leather bags products.

Originally meant for women, nowadays fashion handbags are important and essential fashion accessories for woman. Our leather handbag are recognized throughout the world for its exclusivity and the perfection of every detail.

From joining the top with the sides, to the most complex techniques, from decorations to insert and stitching, from hand painted and metal trim to wood and mother of pearl inlays, from jewel decorations to fur trim and inners, from perforated designs to sharp cut leather, the key to our designer bags are the creativity and skill of its artisans. But this also demands extreme precision, in short, the secrets of a unique designer bags maker.
